ABOUT US

WHY CHOOSE HOSIE ELECTRICAL

Customer satisfaction is always at the forefront of our endeavours.

We were established in **1988** and have developed a solid reputation for providing commercial, industrial and domestic contracting services of the **highest quality**.

We take pride in providing a high standard of electrical services offering reliability, value for money and workmanship of the highest quality. No matter the size of job you can expect the same level of expertise and reliability with one of our **fully qualified** and **industry approved** electricians.

We are a member of **SELECT**, Scotlands leading trade association for the electrical industry and **NICEIC**. All our local industry approved electricians are **compliant with current IEE regulations**.

”

Malcolm Allan Housebuilders have trusted Hosie Electrical with projects ranging from the replacement of a single light fitting to complete installations on purpose built multi-million pound energy sector manufacturing facilities and we have been consistently happy with the professionalism and attention to detail we have received from Hosie's.

**Testimonial from
Malcom Allan**
